A word from the founding President

Mr. Eddy Savoie

Today my family and I have the pleasure of inviting you to discover *Les Residences Soleil's* exceptional environment. We are very proud to welcome many new members every day into our family. Together, we happily form the biggest and most beautiful family! Therefore, on behalf of *Les Residences Soleil* and myself, I cordially invite you to visit your next home!

Three generations

of our family are now providing services to our residents on a daily basis.

As a pioneer in private residences offering the services required to meet seniors' needs, *Groupe Savoie – Les Residences Soleil* is the largest private, family-owned company in this field in Canada. Our over 50 years of construction experience allows us to be fully integrated, one of the main secrets of our success.

A family story

Started through a son's love for his parents

Les Résidences Soleil was founded out of love more than 35 years ago to meet the growing needs of Eddy Savoie's parents while maintaining their quality of life. At the time, they lived with him, his wife, Carmelle, and their five children. When his father's life began to slowly decline, he began looking for a home with the services his parents needed. Despite his search and the beautiful locations he found, none of them offered all the services he expected. He could not imagine moving his parents to a home where their quality of life would diminish. Being in the construction business for 25 years at that time, he and his family decided to build it themselves! The residence was to offer all the essentials: an attendant 24/7, healthy and delicious meals, a wide variety of activities, an indoor pool and spa, a medical clinic, and indoor parking, all close to essential services!

The first residence quickly led to a second and today, 14 residences are in full operation, with several more on the way. Our service offering has continued to evolve over the years to ensure the best for our residents. Being committed to the well-being of our residents and employees, we are proud to provide a family environment and sense of community in our residences. Our goal is always to provide a comfortable, safe and fulfilling retirement for all seniors at affordable prices, even with limited finances or without a private pension. Here, seniors do not come to die, they come to relive their beautiful years to come with pleasure !

The Groupe Savoie oversees alone the development, design, construction, operation, management, financing and ownership of each of its residences. It provides steady employment to more than 2,000 families and currently includes four generations of the Savoie family, three of which are already present daily in the lives of its thousands of residents, as well as their respective families.

We continuously innovate for seniors

Fueled by the love we have for our residents

Since 1988, we have been dedicated and innovating for the benefit of our clientele.

Here is what sets us apart from other seniors' residences:
